

ICAS: VISION AND MISSION

GROUP NO. 7

VISION

We aspire to establish excellence in the public expenditure, financial reporting and management systems for the Union & States to enhance transparency and accountability in governance in line with international standards and best practices.

Mission

To provide a sound financial backbone for effective control and efficient delivery of government financial accounting and internal auditing services. This will enable a world class robust integrated government-wide information system which provides accurate, reliable, comprehensive and useful reports to all stakeholders. This will be achieved through a team of dedicated, professional and integrity oriented workforce.
