

## **Vote of Thanks**

It gives me immense pleasure to propose vote of thanks for the day.

First of all, I would like to thank all previous CGAs and other retired officers who are present here for taking their valuable time out to be part of these civil accounts day celebrations. Your presence is great encouragement and strength to us. As one of the youngest members of the service, I would like to take this opportunity to thank all of you for your invaluable contributions to the Government of India in general and civil accounts service in particular, during your long and illustrative careers.

I would also like to thank the CGA Shri. Sundaramurthi, for his key-note address. Sir, we value all your thoughts/suggestions and we want to say that we are with you in all your initiatives in ushering Good governance and in taking forward our service.

The Committees which prepared the presentation on the IT initiatives and the film which traced the history and achievements of our service, have to be thanked for their effort.

The Pay and Accounts Offices which won the awards are also to be thanked for their untiring effort in bringing better efficiency and recognition to our organization.

Understanding what it is to work behind the scenes as administrators, we would like to acknowledge and appreciate every one who tirelessly worked behind the stage in making this event a success.

Lastly but importantly I would like to thank all of you for being present here and making these celebrations more memorable.

Thank you all very much once again.
